CDP = Census Designated Place; BNA = Block Numbering Area

FEATURES

All Roads

Railroad

Pipe/Pump Line

Physical Feature

Nonvisible Boundary

Stream/Shoreline

Intermittent Stream

River

Electric

Inset

Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

<sup>1</sup> A " " following a place name indicates that the place is also a false MCD.

<sup>2</sup> In 1990, the census of vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a census of vessels tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

The map displays the 1990 Census Tract/BNA Outline Map (Recreated) for the area around Dannemora. The main map area is a large, irregularly shaped polygon with a red border, labeled "Dannemora 19642" and "DANDEMORA TOWN 19653". The area is divided into several smaller tracts, with the central tract labeled "1005". The map includes a legend, scale bar, and coordinate information.

TOTAL SHEETS: 4 (Index 1; Parent 1; Inset 2)

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
